

Budget pressures and funding shortfalls have been big challenges for schools in recent years. Whether it's stationary or staffing, schools have to make difficult decisions, day-in day-out about where to cut and restrict resources to balance their budgets.

One way that schools can bridge this funding gap is by renting out their school facilities.

## This is where School Space comes in

**A partnership with School Space significantly increases your School's lettings capacity and income.**

Our partner schools have seen, on average, a **128% increase in their facility usage** within 6 months of working with School Space.

School Space is a social enterprise with over five years of experience in **generating income for schools**. We work with schools to manage the lettings of their sought-after facilities, ensuring they can focus on what really matters; students getting a fantastic education.

## Our Impact

In the past **12 months**, we have generated more than **£350,000 in revenue** for our partner schools via lettings. £350,000 can buy:

27 Teaching Assistants

152,000 free school meals

Beakers for 260,000+ students

Over 58,000 footballs

A brighter education, a brighter future

## Already doing lettings?

Why not become a School Space partner school? We manage the entire lettings process. From the marketing to unlocking and locking the venue, the partnership is removes **all hassle** for schools.

We split the revenue with Schools and **contractually guarantee** that the School will increase their current levels of lettings income through working with us.

### School Space looks after:

-  Marketing School facilities
-  Staffing; caretaking & cleaning after all events
-  Customer enquiries and service
-  Admin for bookings including cancellations
-  Finance, including invoicing and a full audit trail
-  Insurance, health & safety checks

“The income received from lettings is one of our value for money initiatives which helps to bolster the school budgets and maximise resources we have for teaching and learning. Increasingly it is important for the schools to use creative ways to save money or generate extra income and maximising the use of our premises assets out of school hours. School Space has the expertise in helping us to achieve that.”

**School Business Manager, Didcot Girls' School**
